TERMS AND CONDITIONS

12 MONTH LIMITED WARRANTY – GENUS INVERTER

Coverage Period

Genus Technologies warrants this inverter to the original purchaser for a period of 12 months from the date of purchase against defects in material and workmanship under normal use and service.

What Is Covered

During the warranty period, Genus will, at its option, repair or replace any part of the inverter that proves defective due to improper material or workmanship, at no charge for parts or labor. Replacement parts may be new or refurbished and will be covered for the remainder of the original warranty period.

Conditions

1. This warranty is valid only when the inverter is installed by a Genus-authorized technician and operated according to the user manual.

2. The original proof of purchase/invoice must be presented for any warranty claim.

3. The warranty covers only manufacturing defects. It does not cover damage due to power surges, lightning, water ingress, misuse, unauthorized repair, negligence, or use of non-Genus batteries/cables.

What Is Not Covered

1. Consumable parts such as fuses.

2. Damage caused by incorrect input voltage, overloading, or poor ventilation.

3. Transportation costs to and from the service center.

4. Loss of power, business, or consequential damages.
